

# fix psql import

```
create or replace function cast_to_city_place(text) returns city_place as $$  
begin  
    return cast($1 as city_place);  
exception  
    when invalid_text_representation then  
        return 'town';  
end;  
$$ language plpgsql immutable;  
  
ALTER TABLE osm_city_point  
    ALTER COLUMN place TYPE city_place USING cast_to_city_place(place);
```
