

# Installation

```
dnf install maven prosody
```

```
prosodyctl cert generate meet.fede.re  
prosodyctl cert generate auth.meet.fede.re  
ln -s /var/lib/prosody/auth.meet.fede.re.crt /etc/pki/ca-trust/source/anchors/  
update-ca-trust  
prosodyctl register focus auth.meet.fede.re <secret_str>  
systemctl start prosody
```

```
useradd jitsi -m -s /usr/bin/fish -d /srv/jitsi  
sudo -iu jitsi  
wget https://github.com/jitsi/jitsi-videobridge/archive/refs/tags/stable/jitsi-meet_9364.zip  
unzip jitsi-meet_9364.zip  
mv jitsi-videobridge-stable-jitsi-meet_9364/ jitsi-2.0.9364  
cd jitsi-2.0.9364
```

## Edit pom.xml

```
<properties>  
  ...  
  <user.language>en</user.language>  
  <argLine>-Duser.language=${user.language}</argLine>  
</properties>
```

```
mvn install
```
