

ttrss

Config

```
putenv('TTRSS_DB_HOST=localhost');  
putenv('TTRSS_DB_USER=feeds');  
putenv('TTRSS_DB_NAME=feeds');  
putenv('TTRSS_DB_PASS=...');  
putenv('TTRSS_DB_PORT=3306');  
putenv('TTRSS_DB_TYPE=mysql');  
putenv('TTRSS_SELF_URL_PATH=https://feeds.ppsfleet.navy');  
putenv('TTRSS_PHP_EXECUTABLE=/usr/bin/php'); # normally something like /usr/bin/php
```

Le plugin `af_readability` est bien utile pour télécharger le contenu des articles (à activer dans les paramètres puis pour chaque feed)

L'option `Mark read on scroll` est aussi sympa.

Thème custom

le thème de base est pas ouf, surtout pour la lecture des articles (un peu la fonctionnalité principale d'un lecteur rss)

An updated version of ONLYOFFICE is available to download for Windows, macOS, and Linux.

ONLYOFFICE 7.2 ships with all of the latest [changes to the online version](#), plus some 'unique features' exclusive to the desktop editors, including automatic light/dark mode on Windows and macOS (the feature is present on Linux builds but doesn't, in my testing, do what it should).

Such as? Well, the new version of the *Document* has ligature support in text files; lets you easily insert the current heading into a table of contents; and adds a new "Headings" panel to the main toolbar (replacing the navigation panel). Converting .pdf, .djvu, and .xps documents to .docx is also said to have improved.

The *Presentation* tool now supports custom path animations, offers advanced settings, is able to playback audio and video in slides without requiring VLC, and intros advanced "placement" options for images, when selecting an image and choosing 'advanced settings'.

New features in Document and Presentation

```
.cdm.expandable.active, .cdm.expanded
```

```
{
  max-width:1000px;
  margin-left:auto;
  margin-right:auto;
  background-color: white;
  /*box-shadow: 1px 1px 18px rgba(0,0,0,0.1);*/
  margin-top:15px;
  padding:20px;
  border-bottom: 2px solid;
  width: 90%;
}
```

```
.cdm .content-inner
```

```
{
  font-family: 'Liberation Serif' !important;
  font-size: 18px !important;
  line-height: 1.5em !important;
  font-weight: 300 !important;
  color: #333 !important;
}
```

```
.cdm .content
```

```
{
  max-width:800px;
  margin:auto;
```

```
}

.cdm.dijitBorderContainerPane {
  position:initial !important;
}

#headlines-wrap-inner,#headlines-frame
{
  /*background-color: #e6e6e6;*/
}

.cdm.expanded .footer {
  border:none !important;
}

.cdm.expandable.active .header[data-is-stuck], .cdm.expanded .header[data-is-stuck] {
  margin-top: 10px !important;
  box-shadow: rgba(0, 0, 0, 0.3) 2px 2px 18px !important;
  border-color: grey !important;
  border-width: 1px 1px !important;
  border-style: solid !important;
  top:1px;
}
```
